ROBERT B. SELIGMAN, Ph. D.
VICE PRESIDENT
RESEARCH AND DEVELOPMENT

February 13, 1979

Mr. Allan Topol
Covington & Burling
888 Sixteenth Street, N.W.
Washington, D.C. 20006

Dear Allan:

You will find attached our results of the CO study, which we discussed at the January 8, 1979, meeting in Washington. I believe the report is self-explanatory but note the deviation from the proposed protocol, viz., we were unable to smoke four groups of cigarettes each day. Nonetheless, we did smoke the desired 100 cigarettes during the five-day period.

If there is need to re-run our test because of this slight deviation, please let me know.

Best regards,

B L Seligman

RBS/sgr
